List No. 17

GROUND COVER :: CUT FLOWER and ROCKERY PERENNIALS ::

WITH PROSPERITY, COMES OPPORTUNITY TO REJUVINATE OUR GARDENS

A GREEN RUG FOR THE OUTDOOR LIVING ROOM

PACHYSANDRA terminalis (from the Greek, meaning leather-like foliage and with flower spikes appearing on the terminal shoots) belongs botanically to the Boxwood family, and is found growing wild only in the mountain regions of Japan, hence its common name "Japanese Spurge".

It was first introduced into America about forty years ago, but its use and beauty were not fully realized until years later probably because its scarcity prevented large plantings being made.

Pachysandra is a stoloniferous rooted hardy evergreen plant growing to a height of not more than eight inches. Its flowers are inconspicuous and it does not mature seed in this country. Its foliage resembles that of our native Laurel of Kalmia, being a rich deep green in shade and lighter in full sunlight.

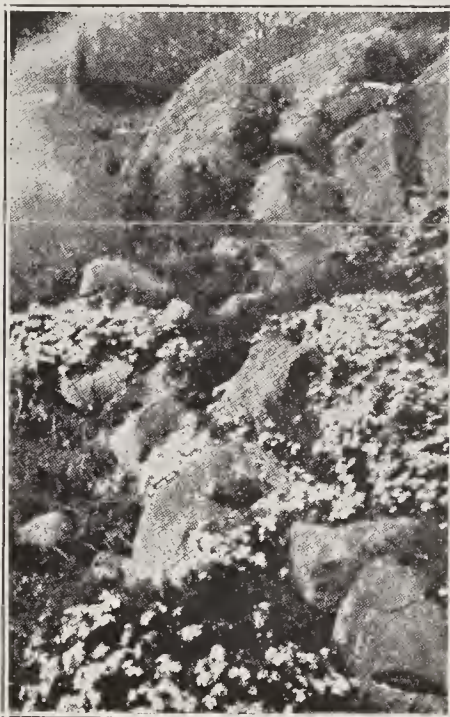

HARDINESS: Pachysandra is hardy in all parts of the United States and Canada. It grows equally well in warm- (Continued on Page 4)

NOTE: Do you know plants will grow everywhere if you put the right plants in their place and supply the right soil conditions. Don't let those unsightly places go neglected, write us, giving details. See Page 6.

**CHRYSANTHEMUM EARLIEST BRONZE
BUTTON**

Another one of the hardy, early flowering Chrysanthemums, that furnishes quantities of flowers long before frost appears. Blooming almost as early as the Azalea Flowered Mum; the flowers are perfect full buttons about one inch in diameter. (Yellow-bronze.) The plant is sturdy forming large strong bushes. 25c ea.—3 for 65c—\$2.00 per doz.

PHLOX SUBULATA Hardy

MOSS OR MOUNTAIN PINKS

These beautiful rock plants cannot be surpassed during the flowering season, in April and May, they are just one mass of brilliant color. This plant may be taken inside during the winter, placed in a pan and made to bloom beautifully. The flowers will stay in bloom for fully a month with the bright blooms above the green of the foliage. Because of its early flowering, should be in every rock-garden. The plants are extremely hardy from frosts and do equally as well when planted in masses on dry sunny embankments; therefore, making an ideal ground cover on terraces of poor ground, in dry, sunny locations as the plants will bear (Continued on Page 4)

OLD FASHIONED GARDENS
MOUNTVILLE, Lanc. Co., Pa.

HARDY ASTER NEW DWARF

MAUVE CUSHION. Distinct species which has attracted much attention by its unique habit of growth, its floriferousness and lateness of flowering. It forms a circular cushion-like plant 2½ ft. across; the center of the plant rarely exceeding 9 inches in height, gradually tapering from 3-4 inches at the outside. The flowers, of delicate Mauve and measure over 1½ inches in diameter, completely covering the plant into late November.

20c each—3 for 50c—7 for \$1.00

See Page 4—More Asters.

NEW BUDDLEIA ILE DE FRANCE

Here is an entirely different Buddleia, for brilliancy of color, grace of its flower spikes and uniform habit of growth. This new Buddleia surpassed all other varieties. The plants develop into well branched, symmetrical bushes 3-4 feet high; the individual flower spikes often measure 10 inches in length, they are brilliant rosy-purple with a violet suffusion. Their fragrance adds another feature to their beauty.

We offer nice strong plants 50cts. each
3 for \$1.25

**AZALEA FLOWERED
CHRYSANTHEMUM**

PINK CUSHION. A descriptive name, a 30 inch rounded mound of beauty, from July until October. The earliest pink mum to bloom, with countless rosy buds and two inch open flowers. Gardens planted with this variety are bright with color in late summer when flowers are usually scarce. They may be planted in borders as well as individual specimens set separately. 25c ea.—3 for 65c—\$2.00 per doz.

A black and white photograph of a flowering plant, likely a columbine, with several large, five-petaled flowers and green leaves. The plant is set against a dark, textured background.

Strong Transplanted Plants of Blooming Age

I offer a large list of choice items at the following moderate prices:

15¢ EACH 2 OF ONE KIND 25¢ 5 OF ONE KIND 50¢

A black and white photograph of a flowering plant, likely a Delphinium. The image shows a tall, slender stem with several light-colored flowers. Each flower has a prominent dark, spotted center. The background is dark and textured, possibly foliage or a wall. The overall composition is vertical, with the flowers arranged in a cluster along the stem.

***ARMERIA**, Montana. Rose-pink flowers. 10 in. Border.
 ***ARENARIA**, Montana. Silvery-white. May. Edges.
 ***ARABIS**, Alpinus. Rock-cress. White. May-June.
ASCLEPIAS, Brilliant Orange-scarlet. July-August.
 ***AUBRIETIA**, Wall-cress. Purple-pink. April-May.
 ***AJUGA, REPTANS**, Creeping plant for dry, poor soil.
AQUILEGIA, Dwf. Columbine Early. White Flowers.
AQUILEGIA, Columbine. Mrs. Scott Elliot. Mixed.
ARTEMISIA, Lactifolia. Creamy-white plumes. Summer.
 ***ANCHUSA**, Myosotidiflora. Deep blue forgetmenot-like flower.
BAPTISIA, False Indigo. Dark blue. June. 3 ft.
BOLTONIA, False Chamomile. Pure white. Tall.
 ***BOXWOOD**, Old English. 6-8 in. plants for edging.
 ***CALAMINTHA**, Alpina. Small blue flowers. June. 6 in.
 ***CAMPANULA**, Carpatica. Hair-bell. Clear blue. 8 inches.
CAMPANULA, Glomerata. Violet-blue flowers. 18 in.
 ***CARNATION**, Border Dwf. Double white. 10 inches.
CATANANCHE COERULEA, Straw-flower like flowers. 2 ft.
CEPHALARIA ALPINA, Sulphur yellow flowers, resembling Scabiosa.
COREOPSIS, Large, rich golden yellow flowers.
 ***CERASTIUM**, Snow in Summer. White flrs. on silvery carpet.
 ***CACTUS**, Hardy evergreen slabs. Yellow flowers.
CENTAUREA, Montana. Mountain blue. Large violet-blue flrs.
 ***CHRYSANthemUMS**, Artic Daisy. Bluish-white; blooms late.
 ***CRUCIANELLA STYLOSA**, Rose-pink flowers. Sun or shade.
DAISY, Shasta. Alaska. Fine semi-double white.
DAISY, Shasta. King Edward. Large white early.
DELPHINIUM, Belladonna Imp. Light blue.
DELPHINIUM, Floradale Hybrids. Many shades.
 ***DIANTHUS DELTOIDES BRILLIANT**, Creeps. Carmine flowers.
 ***DIANTHUS AERNARIUS**, Pale purple, fringed.
 ***DIANTHUS CAESSIUS**, Bright pink flowers.
 ***DIANTHUS**, Maiden Pink. Rosy-pink. June. 6 in.
 ***DIANTHUS**, Neglectus. Very dwf. Rose colored flrs.
 ***ERIGERON**, Speciosa. Aster-like, violet blue flowers.
EUPATORIUM, Hardy Ageratum. Blue paint brush.
 ***EUONYMUS**, Radicans. An evergreen winter creeper.
 * E. Rad. Variegatus. Variegated winter creeper.

 * F. Undulata. Green and white variegated foliage.
GAILLARDIA, Blanket flower. Ex. large red and yellow.
 ***GEUM**, Borisli. Dwf. orange-scarlet flrs.
 G. Hieldrieichi. Rich orange. Seldom out of flower.
 ***GLOBULARIA**, Globe daisy. Blue flrs. 6 in.
 ***HELIANTHEMUM**, Rock or Sun-rose, Apricot.
HELENIUM, Autumnale. Golden yellow flrs. Fall .
 H. Hoopsi. Pure orange-yellow. June. 18 inches.
 H. Riverton Gem. Old Gold to Wall fir. Red.
 ***HEMEROCALLIS**, Day Lily.
 H. Flava, Yellow Day Lily. Lemon-yellow. June.
 H. Kwanso, Fl. Pl. Double orange flowers.
 H. Middendorfi. Earliest. Rich chromo yellow.
 H. Thunbergi. Rich buttercup-yellow. July.

***HEUCHERA**, Alumroot. Bright crimson flrs.
HONEYSUCKLE, Hall's. Evergreen ground cover. Sweet scented.
HIBISCUS, Marshmallows. Giant flrs. Red, Pink, White.
IRIS, Siberian. Blue, Yellow, White.
 I. Japanese. Gold Bond. Pure white.
 I. Japanese. Dark shades.
 * I. Pumilla. Elk's Purple. Earliest to bloom.
 * I. Pumilla. Excelsa. Golden yellow. 8 inches.
 * I. Pumilla. Schneekuppe. Snowcap. White. 8 in.
***IBERIS**, Gibraltaria. White flrs. Tinged rose.
IBERIS, Sempervivens. White Candytuft.
ICELAND POPPY, El Monte. Tangerine. New.
***INULA**, Ensifolia. Yellow flrs. July-Aug.
***IVY HARDY ENGLISH**, from 2¼" pots. Large leaf.
 * Small leaf. Grows and clings rapidly.
***LINUM**, Perenne. Blue Flax. Free flowering.
LOBELIA, Cardinal Flower. Firey-scarlet.
LOBELIA, Resembles Cardinals but with blue flrs.
LYTHRUM, Rose Loose-strife. July-Sept.
LATHYRUS, Hardy Sweet-pea. Pink flrs. Trailing.
LYCHNIS, Fiery-cross. Vivid scarlet flrs. July.
LIATRIS, Scarioisa. Purple gay-feather.
LUPINES, Hardy; mixed colors. 25 cents each.
***MERTENSIA**, Virginia Blue-bells. Blue to pink.
***MAZUS**, Reptans. Ground cover. Lilac-blue flrs.
***MYOSOTIS**, Everliving. Forget-me-nots.
***NEPETA**, Mussini. Blue flowers. July. 12 in.
***OENOTHERA**, Evening Primrose. 4 in. flrs. on 10 in. stems.
ORIENTAL POPPY, Olympia. Double flowered. Scarlet.
 O. Brightness. Brilliant Orange-scarlet.
 O. Goliatha. One of the largest scarlets.
 O. Mrs. Perry. Salmon-rose, black blotches.
PARDANTHUS, Blackberry Lily. Bright orange. July.
PHYSALIS, Chinese Lantern. Plant.
PHYSTEGIA, False Dragon-head. Lavender-pink.

PHLOX, Tall Sorts:
 P. Mia Ruys. Large heads. Glistening white. 2 ft.
 P. Thor. Salmon-pink. July-Oct. 2 ft.
 P. Rhineland. Salmon-pink. 2½ ft. July-Oct.
 P. W. W. Wallace. White with red eye. 2½ ft July-Oct.
***PHLOX**, Subulata. Moss or Mountain Pink.
 P. Rosea. Bright Rose.
 P. Alba. Pure White.
 P. Lilacina. Lt. Blue.
***PHLOX OVATUS**, Reddish-pink flowers. 1 ft.
PLATYCODON, Balloon Flower. Large blue.
 P. " " Large white.
***POLEMONIUM**, Reptans. Dwf. early blue bell-like flowers.
***PRIMULA**, Hardy Primrose. Mixed colors.
PYRETHRUM, Painted Daisies, Pink shades.
***RANUNCULUS**, Double. Golden Butter-cup.
***SANTOLINA**, Lavender Cotton. Dwf. evergreen shrub.
SALVIA, Azurea. Gr. Azure blue sage. Tall.
 S. Turkestanica. Pink Meadow sage. Summer.

SWEET WIEVELSFIELD

Few flowers have richer colors or a longer blooming period than this new race of pinks.

TRITOMA

**OLD-FASHIONED GARDENS
SELECTED
GIANT GAILLARDIAS**

This mixture contains most unusual colors of exceptionally large flowers born on strong, stiff stems. Colors: Lt. yellow; gold; Indian red in plain and fluted types.

HARDY PLANTS—Cont'd

- ***SAPONARIA**, Ocymoides. Bright rose. Flrs. 8 in.
- ***SEDUM OR STONE-CROP**, Dwf. Sorts:
Acre, Golden Moss. Yellow flrs. Green foliage.
Album, Green foliage. White flrs.
Lydium, Bronzy-green foliage. Pink flrs.
Fosterianum, Bluish-green leaves. Golden flrs.
Coccineum. Rosy-crimson flrs. and stems.
Spectabile, Brilliant. Amaranth red. 18 inches.
- ***SEMPERVIVUM**, House-leek or Hen and Chicks.
S. Alberti. Bright red House-leek.
S. Arachnoideum. Spider House-leek. Flrs. pale purple.
S. Globiferum. Globe House-leek. Pale yellow flrs.
S. Tectorum. Roof-House-leek. Leaves tinted pink and purple.
- SPIREA**, Avalanche. Great plumes, white flrs.
S. Gloria. Feathery plumes of brilliant pink.
- ***STACHYS**, Lamb's ear. Silvery-white wooly foliage.
- ***STATICE**, Incana. Pink flrs. May be dried.
- STOKESIA**, Corn-flower Aster. Lavender-blue.
- THALICTRUM**, Columbine-like foliage. White flrs. 2½ ft.
- ***THYME**, Scented Bright Silver foliage.
- ***THYME**, Scented Golden leaf foliage. Purple flowers.
- ***TRADESCANTIA**, New rose-pink Spider-Wort.
- TRITOMA**, Torch Lily. Many colors. Absolutely hardy.
- ***TUNICA**, Saxifraga. Tufted plants. Wild flowers.
- VERONICA**, Longifolia Subsessilis. Indigo-blue. 2 ft.
* V. Incana. Blue flrs. on silvery foliage.
* V. Bluebird, Speedwell. Deep blue. 10 inches.
* V. Repens. Bright blue flowers. 8 in.
- ***VERONICA RUPESTRIS, ROSEA**.. Pink flowers.
* V. Rupestris. Light blue flrs. 3-4 in.
V. Spicata. Bright blue flrs. 1½ ft. stem.
- ***VIOLA**, Jersey Gem. Blooms most of the year.
* V. White Perfection. A fine free flowering white.
- ***VIOLETS**, Frey's Fragrant. Scented winter blooming.
- ***VIOLA ROTUNDIFOLIA**, Johnny-Jump-Up.
- ***VINCA**, Periwinkle or Trailing Myrtle. Flowers, blue.
- ***VINCA**, Periwinkle or Trailing Myrtle. Flowers Mauve.

Plants That DO BLOOM In Shady Places

BEGONIAS

Bed of bright colored flowers may be had in shaded and semi-shaded places by using BEGONIAS. Semperflorens and Tuberous sorts, which may be had in many shades and colors. IMPATIENS may be used where taller growth is desired. Time and experience have proven the following: varieties most adaptable for bedding in shade. The north side of a house or under, or north of trees, the plants will give endless amount of blooms throughout the summer provided you give them a good rich soil. Try some of them in those beds that have not grown successfully Petunias, Verbenas, and other annual flowers, I know you will be more than pleased with the results. See IMPATIENS Page 4.

Tuberous Rooted Begonias Camilla Flowered, Doubled, Frilled And Crested

Unexcelled for summer bedding, for lawns, beds and borders; flowering until frost when the bulbs may be dug and stored for winter. If you have never tried a bed of them in shade or the north side of a house you still have a treat in store.

- SUNSET**, Frilled, large bright orange.
- SNOWBIRD**, Crested, glistening white.
- SUNRISE**, Frilled, large, bright rosy pink.
- RED CHIEF**, Large, bold, bright red. Crested. 1½ to 2" bulbs 30c each—6 for \$1.50.

SEMPERFLORENS BEGONIAS

CARMEN "NEW" Bright rose colored flowers in lovely contrast to the beautiful bronzy-red foliage. Pot Plants 15c each 2 for 25c—5 for 50c—25 for \$2.00.

LUMINOSA COMPACTA.. Masses of bright-scarlet red flowers on bronzy-red foliage. Pot Plants 15c each—2 for 25c—5 for 50c—25 for \$2.00.

Hardy Begonia Evansiana

JEWEL. This is a tuberous herbaceous, hardy perennial begonia losing its tops in the fall. When bedded out the roots remain in the soil and start new growth in the spring just as do peonies and perennial phlox.

25c ea., 6 for \$1.25

ERIGERON Fleabane

SPECIOUS MAXIMUM. Large handsome blue flowers, Violet tinted and yellow centers. Low green foliage forming dense mass, the flowers grow on stems 10-12 inches. It is ideal for borders, rockery, and cut flowers. Starts bloom in June continuing well into the hot weather with a good sprinkling of flowers until frost.

20c ea.—3 for 50c—\$1.75 per doz.

CAMPANULA GLOMERATA

A Campanula that should be in every garden. Grows about 18 inches high. In June and July has large, close heads of deep blue flowers which are strikingly effective. This variety is perennial and does not die out after it has bloomed, instead it increases in size and effectiveness. An Old European favorite.

25c ea.—3 for 65c—\$2.00 per doz.

PHLOX SUBULATA Hardy

(Continued from Page 1)

trimming or cutting back to conform with the landscape requirements.

ATROPURPUREA, Moss Phlox, The flowers of this variety are a deep carmine-red making a most brilliant display. 20c ea.—3 for 50c—\$1.50 per doz.

BLUE HILLS, Moss Phlox, This variety forms dense, bushy plants, smothered with blue flowers in April-May. 20c ea.—3 for 50c—\$1.50 per doz.

VIVID, Moss Phlox, Bright pink with dark pink eye. One of the choicest of dwarf phlox. 20c ea.—3 for 50c—\$1.50 per doz.

For other Phlox see page 2.

BEAUTIFUL GLOXINIAS

These showy plants are easily grown in pots for summer or winter bloom. They make a glorious display of blooms over a long period. The bulbs may be kept from year to year increasing in size and strength. Colors: Lt. Blue, Purple, Pink, Red, White, with pretty mottled throats. 2 yr. bulbs 20c each—3 for 50c—7 for \$1.00.

A GREEN RUG FOR THE OUTDOOR LIVING ROOM

(Continued from Page 1)

er climates of Florida, Southern California and even Hawaii.

EVERGREEN: The plant does not lose its leaves, they retain their color through winter and summer, although the color as stated, will be somewhat lighter in direct sun than in shade.

HEIGHT: Pachysandra will maintain an even height of about six inches or not more than eight inches.

DISEASE FREE: No fungus or other disease affects Pachysandra.

INSECT PROOF: Insects will not attack the plant, nor will any animal eat the root stem or foliage.

SHADE: A distinct characteristic of Pachysandra is the fact that it thrives equally well in dense shade or partial shade, whether from buildings or trees, or in full sun. This unusual characteristic of the plant permits its use in many places.

ASTERS. Hardy New, Dwarf

LADY H. MADDOCKS. Clear pale pink flowers. Very free flowering and dwarf compact habit. Blooms Sept 1st. 20c each—3 for 50c—7 for \$1.00.

SNOWSPRITE. A very dwarf early fall flowering variety, forming perfect clumps, these are smothered with large semi-double flowers. Blooms early Sept. Height 1 ft. 25c each—3 for 65c—7 for \$1.30.

VICTOR. The dwarfest of all, very pretty. The flowers are of good size and of beautiful pale lavender blue. A charming rock plant. Flowering early Sept. 8 inches. 25c each—3 for 65c—7 for \$1.30.

PLANT FOOD

Chrysanthemums and other flowering plants are gross feeders, they all like a well drained, rich soil that has had an application of stable manure. While stable manure is becoming harder to get we have sought other sources of fertility. After trying a number of so-called commercial fertilizers we now use one known as 4-6-6 V. C. formula. We use it freely on any type of plant and find it especially good for feeding chrysanthemums applying it between the rows in dry form weekly until the buds appear. It makes a healthy, green, thriving plant and puts color into the bloom. It is economical and does not burn the plants. We are able to furnish some of this fertilizer from our regular source. 10 lbs. 40c—50 lbs. \$1.75—a bag 100 lbs. \$3.00 via freight or express collect.

IMPATIENS

Valuable bedding plants for **SHADY PLACES** where bright flowers are wanted. It is unsurpassed as a quick growing constant bloomer doing equally well in sun or shade.

PINK BEAUTY. Light pink.

ROSE QUEEN. Bright, deep rose.

SALMON QUEEN. Soft, salmon.

CARMINE. Rosy-carmine.

VARIEGATEA. Striped leaves; rose flowers.

Plants \$1.20 per doz.—\$7.00 per 100.

LOBELIA

FOR BORDERS OR BASKETS

Shades of blue flowers on 4 to 6 inch plants.

Pot plants 15c ea.—2 for 25c—5 for 50c—25 for \$2.00.

ARMERIA Thrift

CEPHALOTES RUBRA, Bee's Ruby. Large Rosy flower heads on 8-10 inch stems—June-August. This plant beyond a doubt is one of the best rockery and low border plants, being extremely hardy. It forms a dense clump of deep green short leaves, often times carrying blooms after the first frosts have visited our gardens.

20c ea.—3 for 50c—\$1.75 per doz.

HARDY GROUND

COVER PLANTS

2 Year advance sizes for Sun or Shade 25 plants \$2.00 postpaid—\$5.00 per 100. \$45.00 per 1000 plants express collect. **HARDY**

ARENARIA MONTANA, white flowers and foliage.

CRUCIANELLA STYLOSA, Pink flowers.

THYMUS, Creeping thyme for special locations.

TRADESCANTIA, VIRG. ROSEA, Rose spiderwort.

OLD FASHIONED GARDENS VIOLA TRICOLOR

We feel that we are entitled to call this our find as it is something different in a hardy violet. The plant spreads to an enormous size, the small leaves and running habit cause it to spread over the ground. We have had a single plant carry more than a hundred flowers at one time during August and September, which means that it withstands the hot weather, which is unusual among Violas. It is of the old-fashioned Johnny-Jump-Up type, the flowers resembling the Bird-foot violet, except not so large. The two upper petals being a velvety purplish-maroon, the lower petals being violet-mauve with a golden center or eye. At this writing in early February we have blooms on plants taken into the greenhouse and everyone seeing them is delighted with the color and habit of growth.

25c ea.—3 for 65c—\$2.00 per doz.

CANNA, THE PRESIDENT

Most satisfactory dwarf with green foliage and red flowers.

15c ea.—2 for 25c—5 for 50c

CHRYSANTHEMUMS

NUGGETS

GOLD COIN

FIELDS OF SNOW

EVERY garden has room for some of Autumn's brightest flowers. In the border by a fence or building, a well planned and cared for bed repays itself with the gorgeous array of colors it will furnish in Autumn. Tiny buttons, medium buttons, Singles, Balls, Pompons, Shaggy ones and the large globes of gold; bronze; reds; pinks; yellows and many intermediate shades. Try a bed of a hundred or more and experience the thrill, and pride of showing your friends and neighbors your skill as a grower of Autumn Queen Chrysanthemums. Cut some blooms for friends who are shut in or decorate your church.

CULTURAL NOTES

LOCATION AND SPACING. Plants may be set singly in hardy borders or beds with other flowers, allowing about 2 feet of room for the Hardy Varieties to naturalize and spread. In garden beds when planted alone 8 to 10 inches is plenty of room. For the ideal results I recommend the Chrysanthemum Bed with at least an 18-inch path through the middle of the bed. Beds may be made as long as necessary to accommodate the desired amount of plants. Each bed may contain six rows of plants in rows 6 inches apart and the plants set 8 inches on the row. This plan enables us to give plants special care in staking, disbudding, etc.

WITH THE APPROACH OF EARLY FROSTS, a frame may be built over the foregoing described beds strong enough to carry a covering of Cello Glass, Muslin or Burlap. Such improvised frames enable us to lengthen the Chrysanthemum season until after Thanksgiving.

ABBREVIATIONS USED FOR DESCRIPTIONS:

A. R. S., Advanced Root System: The Plants we send have been sand rooted and then grown in soil, making a far better, healthier growing plant than those that become hardened by pot growing. Plants thus handled start growth easier and bloom better. S.—Short. M.—Medium. T.—Tall. E.—Early. XE.—Extra early. MS.—Midseason. L—Late. (*) Suitable for pot plants.

Three New Outstanding Hardy Chrysanthemums

GRANNY SCOVILLE. A lovely, large, flower, fully four and one half inches across and of nice, fluffy form. The color, a warm coral-bronze. Growth is dwarf and branching, with fine healthy foliage. In full bloom October 10th. **Pot plants 20 cents each. 3 for 50 cents.**

JEAN TREDWAY. Award of commendation, Boston, 1935. The flower is large, fully three inches across. Of perfect Decorative or Aster formation, with excellent substance. On opening, the color is a lovely sparkling pink with a dark rose-pink center but when fully opened it becomes a nice soft lilac shading to white. Of medium height, bushy in growth, free flowering. In full flower Sept. 30th. **Pot plants 20 cents each. 3 for 50 cents.**

FEZ. A chestnut-crimson button variety that commands attention on the market. Growth upright and sturdy, producing well branched sprays. A distinct variety, with outstanding features of which are perfection in form and color. The flowers are one and one half inches across, with the essence of neatness in form and arrangement. Blooms November 10th. **Pot plants 20 cents each. 3 for 50 cents.**

New Collarette Marigold

CROWN OF GOLD DISTINCT NEW TYPE BLOOMS ALL SUMMER

Sensational achievement is the production of this new MARI-GOLD, resembling a golden Chrysanthemum. The flowers are delightfully sweet-scented and the foliage is entirely free of the usual Marigold odor. This is the only Marigold in cultivation with entirely odorless foliage. Plants grow 2 feet tall, blooms early and profusely all summer until frost. Crown of Gold is lovely, in the garden and wonderful as a cut flower. Our stock is obtained directly from the originator and guaranteed to be true. You will want to be among the first to grow it in your garden. Strong plants. **50 cents per dozen—3 dozen for \$1.25 postpaid.**

CHRYSANTHEMUMS—NEW KOREAN

25¢ EACH

6 FOR \$1.25

APOLLO. A sparkling combination of bronze, red, and gold, suffused with glowing salmon. The single flowers 2" across, are produced in immense sprays, height 2½ ft. Blooms October 12th.

DAPHNE. An exquisite blending of Daphne-pink with an underlying sheen of lilac-rose, enhanced with prominent golden stamens in the center. Height 2 ft. Blooms October 12th.

CERES. A lovely combination of old gold, chamoise yellow and soft coppery bronze. The mature flowers appear as if dusted with gold. Height 2 ft. Blooms October 10th.

DIANA. Chantenay—rose-pink mingled with lilac-rose and of soft salmon, the tones of which vary with the degree of light, the triple rays of petals give an appearance of fullness. Height 2 ft. Blooms October 10th.

MARS. Deep Amaranth-red, changing to wine-red, overlaid with a velvety sheen. Height 2 ft. Blooms October 15th.

MERCURY. Single flowers, open bronze-red and changing to coppery-bronze, as they mature. Height 2 ft. Blooms September 30th.

Two New Doubled Flowered Korean Chrysanthemums:

Entirely new offered for the first time this year.

KING MIDAS. In profusion of flowers, there is no double hardy chrysanthemum comparable to this lovely newcomer. The plants are literally covered with flowers for a very long period, commencing in late September and continued throughout October. The flowers average four inches in diameter, are fully double, and a charming shade of soft yellow with the faintest bronze shadings. A color that blends perfectly with almost any other shade and very effective in itself. Growth; very branchy, attaining an average height of 2½ feet, very hardy. **Pot plants 65 cents each.**

EMBER. This is a remarkable hardy and rugged Chrysanthemum, which apparently withstands all weather conditions. In color, a brilliant glowing bronze which stands out conspicuously in comparison with any others in this color. It is, in fact, a combination of coral and orange shades that cannot be described accurately, ever changing with the light, but always compelling. The bloom is not too double and is of excellent form, 2½" in diameter flowering in mid-October, it will be particularly desirable if a mid-season variety is wanted. The flowers are quite frost-resistant. Height 2½ feet. **Pot plants 65 cents each.**

NOTE: One plant each of the above varieties \$1.25.

The chrysanthemums marked (*) as well as others may be successfully grown in 5 or 6 inch pots. In order to have them low and bushy they will need frequent pinching up until a few weeks before the buds appear. Pinch out the new growth allowing but one set of leaves above the recently formed crotch. After pinching new growth will start when again it shall be pinched in the same way, this method will keep the plants low and bushy. Pinching shall start when the plants are about 8 inches tall.

HARDY GROUND COVER PLANTS FOR SUN OR SHADE

(At prices that permit planting large areas, without costing a fortune.)

For Super Success: Write me about the proposed planting, giving full details. Location sun or shade, if shaded by what; trees or buildings. If in sun is it a terrace, embankment or flat surface. **Soil.** Is it sand, gravel or limestone soil? Do you want bushes, evergreens or flowers included in the planting? Nice plantings can be made with flowers, if the right plants are used and the soil is in proper condition.

Don't trust to luck. Our specializing experience and service will save you money and time, and its all free. Your order for plants will repay us, and your results with our plants will gratify us for this extra service we give. All we ask when writing us is to enclose a stamped envelope self-addressed.

Sun Gold

Mrs. Kidder

If convenient call and see my stock. Visitors are always welcome as I like you to see what you are getting for your money.

JOHN L. LOCKARD.

Every item I offer is guaranteed to be as represented in this list, and to reach you in healthy, growing condition. I will replace any plants that fail to grow, when reported within twenty (20) days or refund your money you have paid on any item you are not satisfied with upon your returning same. At no time do I assume responsibility for more than purchased price. This list cancels all previous offers.

NOTE: If when filling order we do not have the size clumps or pot plants you have ordered, we will (if on hand) send larger sizes at no increased cost. Also, when smaller sizes are (only) on hand we will make up the difference in quantity or refund the difference.

Feb. 8, '37.

Mr. Lockard:

Please send me one of your Catalogues
as I am interested in rock garden plants
and expect to visit your gardens again
this Spring.

MISS MARY A. HARMAN,
Hanover, Route 3, Pa.

P.S.: All my Plants I got from you last Sept. are all growing nice.

Dear Sir:

Having received the Japanese Garden Set and being satisfied I wish you would send one to each of the following (2 addresses given).

Mr. W. W. _____, 17 Dwight St.,
Brooklyn, N. Y.

Dear Sir;—

Wish to thank you for the wonderful plants you have sent me. Of all the plants I have purchased from other growers, your plants by far surpass the others in size, vigor and condition received in.

Enclosed find money order for the following new order:

Chester K. _____, 11 Hillside St.,
Worcester, Mass.

ORANGE FLARE.. A lovely vivid, orange variety, starts blooming nearly two months earlier than other sorts and continues blooming until frost.
A. R. S. plants 25c per doz—5 doz. \$1.00.

(T E A R O F F H E R E)

Order early, thereby avoid disappointment of certain varieties being sold out.

PETUNIAS

Ruffled Mammoth Compacta "Martha Washington"

A new break in Petunias. The variety is a ruffled or frilled, dwarf, compact grower about 10 inches high, forms a perfect ball, literally smothered with lovely frilled blooms about three inches in diameter. Its neat, compact habit has never before been seen in Petunias. The color is remarkable. The frilled portion of the flower is a beautiful bluish pink, the center is strongly veined a rich wine-red, deepening in the throat to a dark violet. Suitable for borders, bedding, pots or window boxes.

A. R. S. plants 25c per doz. 5 doz. for \$1.00.

FLAMING VELVET. "New" large flowering bedding petunia. A deep velvety mahogany red.

A. R. S. plants 25c per doz.—5 doz. \$1.00.
CELESTIAL ROSE. Dwarf, compact, variety for all purposes. Vivid rose with white throat. Very free flowering.

A. R. S. plants 20c per doz.—3 doz 50c—7 doz \$1.00.

ROSE OF HEAVEN. Dwarf, compact, brilliant rose with light throat. Very bright and show.

A. R. S. plants 20c per doz.—3 doz. 50c—7 doz. \$1.00.

ROSE GEM. "New". The small, rich, deep rose flowers completely cover the well rounded compact plants, which grow only 6 inches high. A miniature Petunia, will be in great demand.

A. R. S. plants—20c per doz.—3 doz 50c.—7 doz \$1.00.

SNOWBALL Lovely, of the purest white combines well with other varieties and is striking when planted in a solid bed.

A. R. S. plants 20c per doz.—3 doz 50c.—7 doz \$1.00.

SNAPDRAGON

LARGE FLOWERED HALF DWARF

A glorious mixture of splendid named varieties producing long spikes of many flowers.

A. R. S. plants 20c per doz.—3 doz 50c—7 doz. \$1.00.

AGERATUM

OR BLUE PAINTBRUSH

A. R. S. Plants 35c per doz.—\$2.50 per 100.
CARDINAL MUNDELIEN. Dwf. Compact Uniform height. Dk. blue flrs.

FRAZERII. Compact 8 in. plants of uniform height. Bright clear blue flrs.

WILSONII. Attractive light powder blue flrs. on compact 8 in. plants of uniform growth.

RIVERSIDE. "New". This variety withstands summer heat, grows uniformly 10 in. tall, deep blue flrs.

Pot plants 15c ea.—2 for 25c—5 for 50c—25 for \$2.00.

Poinsetta Flowered Geranium

How would you like to have a plant that is a Geranium in habit of growth and leaves, requiring the same ordinary attention as do the regular Geraniums, except that the flower truss is composed of a number of bright scarlet florets, each one resembling a perfect miniature Poinsetta such as we are accustomed to have at Christmas time? We have a very limited stock of these plants which we are offering this year for the first time at 25 cents each, providing that your total order amounts to \$2.00 or more, allowing only one to a customer. We cannot under any consideration accept any order for this grand new plant unless it is accompanied with an order for other seeds or plant stock from this catalogue.
